What is Erasmus+?

Erasmus+ is the EU's programme to support education, training, youth and sport in Europe.

It has an estimated budget of €26.2 billion. This is nearly double the funding compared to its predecessor programme (2014-2020).

The 2021-2027 programme places a strong focus

- on social inclusion, the green and digital transitions, and promoting young people's participation in democratic life.*

Organizational Info

The project brought together youngsters from four countries which are the Czech Republic, Hungary, Poland, and Romania to the Hungarian city of Tiszaladany, where they have learned about the pros and cons of the internet as well as social media with a special effort paid on explaining dangers which can be found online. During the project non-formal methods of education were used such as discussions, debates, group work, theatre, energizers, and many others.

Activities

First participants tried to get to know each other!

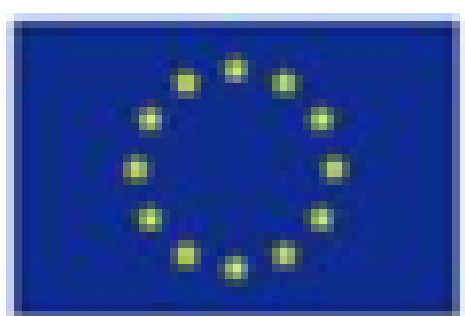

Co-funded by the Erasmus+ Programme of the European Union

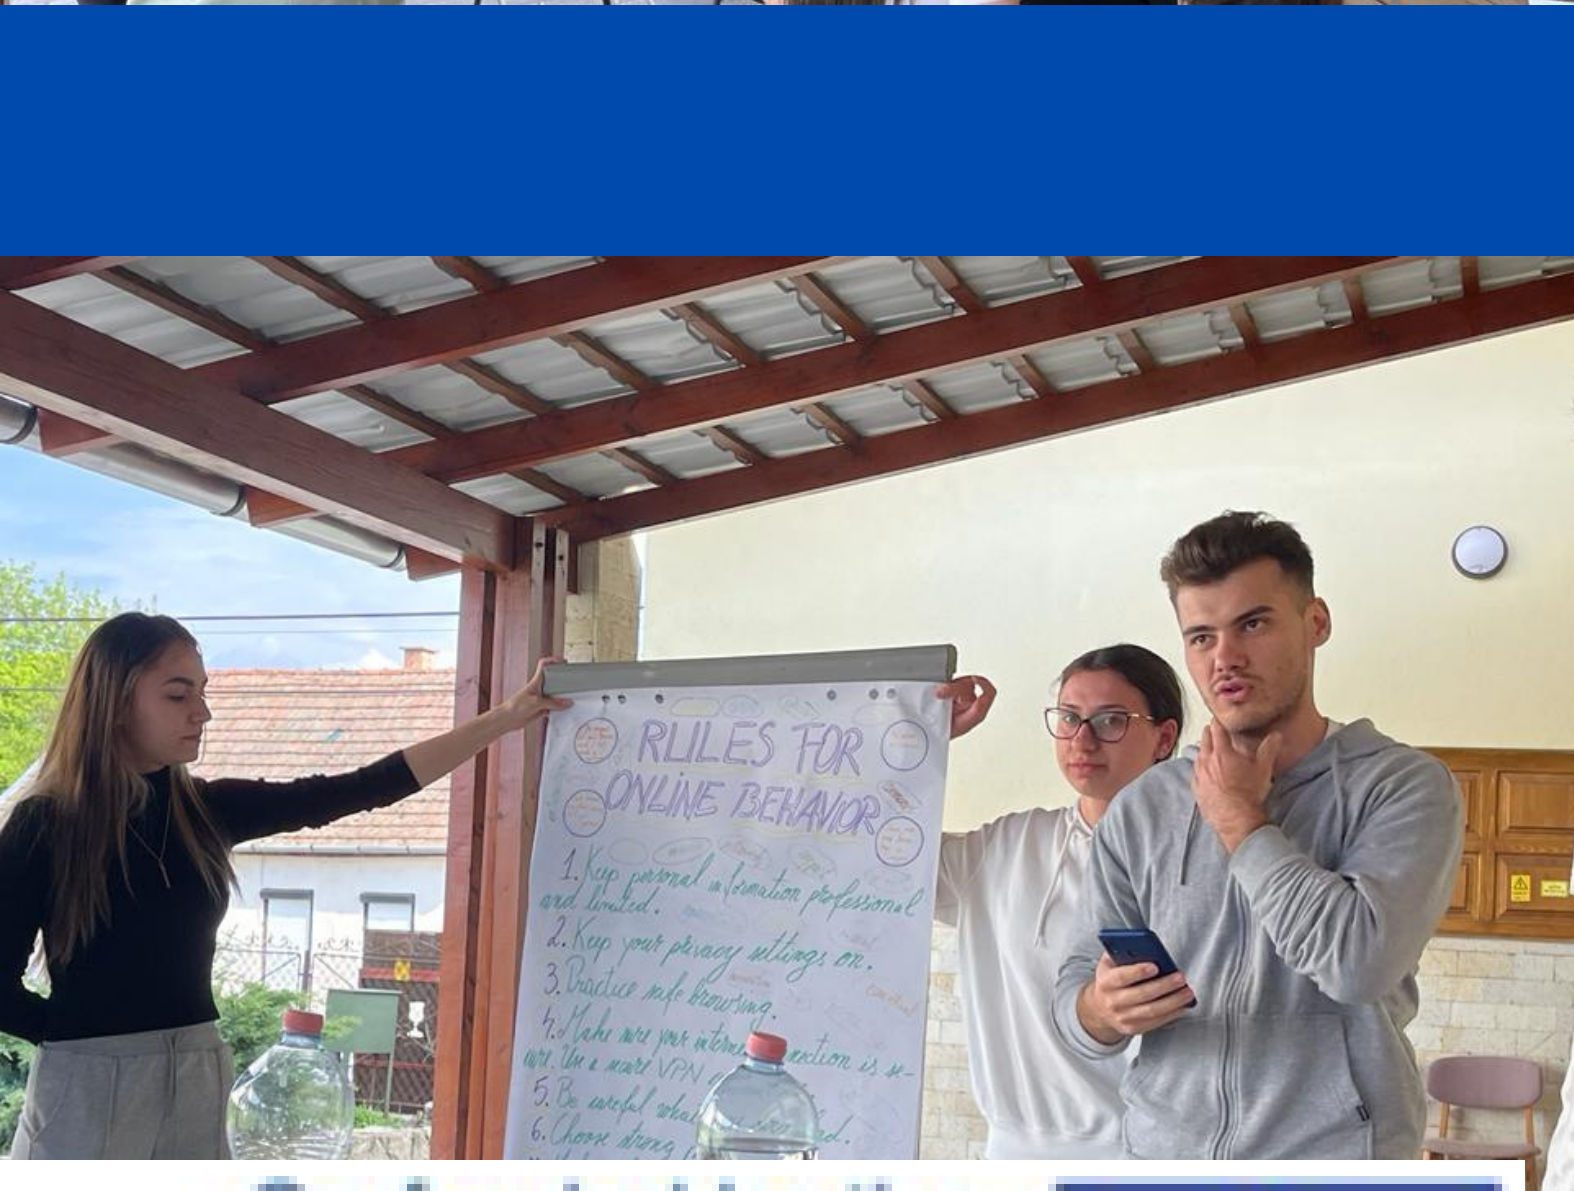

Getting to know each other

Getting to know each other activities belong to the crucial point of each Youth exchange. The participants have to feel welcomed and safe in their group. Therefore especially ice-breaking games and group games took place here. The game which was welcomed the most is called the Facebook game, where participants with help of each other are creating their Facebook profiles while learning more about their new colleagues.

Group works

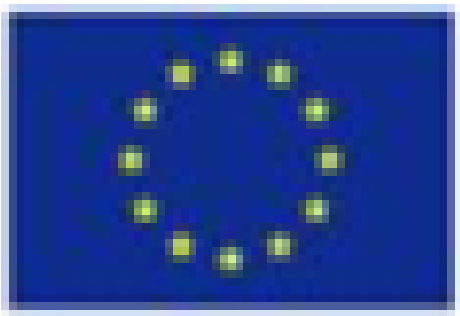

Group work in the international team brings to the participants many benefits. Firstly the understanding of different viewpoints of people from other countries, as well as the need of using English are crucial. Except that each participant improved their ability in working in a group, and presenting own ideas, and as well the ability called public speaking was improved.

Community day

Community day was the key day of the program. During this day we presented to the audience all the outputs such as paper materials created by us. Videos connected to the topic were recorded by the participants, e-materials designed by us, and many others. This session was a key part of our strategy to make the local community understand why we came to their city and to promote Erasmus+. The participants as well had a chance to explain what they learned during the week which was especially better English skills, presentation skills, deeper knowledge about cybersecurity, IT skills, and many others.

Cleaning the city

Cleaning the city

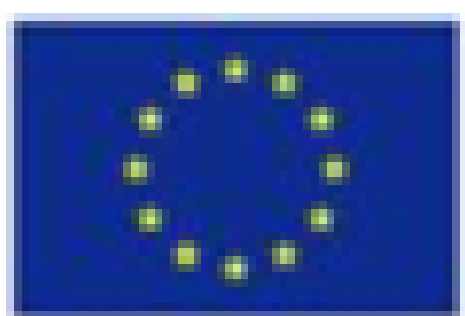

On the last day, we decided to do one more activity to promote our presence in the city. Therefore we managed to get trash bags and decided to clean the surroundings of the football stadium which is nearby. Each pair managed to collect a whole trash bag so the result was significant. During this activity, we used gloves and other protection in order not to get anyhow infected.

Participating countries

Czech Republic, Hungary, Poland, and Romania belong to countries with a common history and their cooperation can be found already hundreds and hundreds of years ago. Like most of the post-communist countries, these lands have common issues on the national level as well as on the local level. The youth work is not any different. Therefore the cooperation of those four states can bring huge advantages for the future as well as close connections between young individuals can bring new ideas which will develop their home communities.
