COLLECTION OF VALUES THE YOUNG PEOPLE FOUND IN ROMA CULTURE

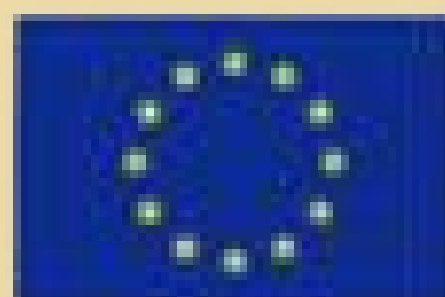

Through this project, the young participants learned to be more open to this culture as well as to every person, regardless of culture, ethnicity, religion, etc. This project taught them not to discriminate, not to judge people by nationality or appearance because everyone is equal and has the same rights. It helped them understand the Roma culture much better, learn about Roma weddings and traditions which are really interesting by the way. This project showed them that everyone is equal regardless of their culture or stereotypes.

Participating countries

Czech Republic, Hungary, North-Macedonia, and Romania belong to countries with a common history and their cooperation can be found already hundreds and hundreds of years ago. Like most of the post communist countries, these lands have common issues on the national level as well as on the local level. The youth work is not any different. Therefore the cooperation of those four states can bring huge advantages for the future as well as close connections between young individuals can bring new ideas which will develop their home communities.
